PROFILE

I am passionate about solving problems through code and creativity. JavaScript is my language of choice because it empowers me to build both front-end (React) and back-end (Node/Express) applications. Attention to detail and hard work are among my best qualities; once I start something, I am committed to seeing it through with precision.

EMPLOYMENT HISTORY

Learnership (full stack), Zaio   Remote
May 2023 — May 2024

Version Control Management:

- Use Git/GitHub for MERN stack projects. Implement branching, merging, and collaborate via Git workflows.

Mern (Node.js + Express.js,React.js,MongoDb)

- Develop UIs and components with React.js. Manage state and ensure cross-browser compatibility.
- Build RESTful APIs and integrate with MongoDB. Implement authentication and handle data storage efficiently.
- Design schemas and perform CRUD operations.

Learning and Growth:

- Stay updated with React.js, Node.js, Express.js, and MongoDB. Engage in tutorials and apply new knowledge to projects.

Team Collaboration:

- Work effectively with developers, designers, and managers.
- Communicate clearly and participate in agile/scrum meetings.

EDUCATION

Diploma in business information technology , University of Johannesburg   Johannesburg
Feb 2021 — May 2024

Focus on business analysis and software development

Certification , Udemy(node/express)

Certification , React

Mern stack, Zaio coding school   Johannesburg

Present

AWS (cloud practitioner and solutions architecture),   Johannesburg
ALX

Apr 2024 — Present

Currently enrolled and learning the cloud,alrhough we haven't dived deep into aws
services as we just commenced with the course but I do believe this is worthy to
add as it shows that I'm eager to grow and learn new technology in the industry in
order to perform at my best in any role given.
